Headlands Distilling Co.

Four local founders combine their skills spanning engineering, science and business to create a brand that highlights unique Australian ingredients and the delicious flavours they impart.

The journey starts in the NSW Riverina where the grain used as the base of their spirits is sourced.

By working with a single grower, the final product can be traced back to the specific paddock where the grain was grown. Coupled with complete production oversight from milling and fermenting to distillation and bottling, Headlands embodies the Grain to Glass philosophy.

The team at Headlands is always on the hunt for innovation. From gins infused with rare native Australian botanicals such as boobialla juniper berries and local Illawarra plums, to whiskies aged in Australian muscat, apera or world first Illawarra plum casks, Headlands has a spirit for everyone.

Testament to this passion are the 30+ international awards won by the portfolio of spirits. Free tours and tastings are available every Friday and Sunday afternoon as an opportunity to learn from Wollongong's premier distillery. It's a unique experience in the heart of Wollongong.
